

Any Brick-dust below Maids; Maids
do you want any Brick-dust?

FOR scow'ring dirty Pots and Kettles
And utensils of various metals;
To tongs or poker, or steel fender,
A shining polish oft to render;
Your knives and forks to clean and
whet,
And a sharp edge thereon to set,
The Brick-dust man does here produce
A powder for the housewife's use,
With which all cleanly ones dispence,
Then take his dust and pay your pence.
